

CATALOG FEATURES

Part Numbers have been standardized the part numbering system and have incorporated the S.R.I. NUMBERING SYSTEM (Spring Research Institute Standardized Numbering) to the front shackle kit part number. The front shackle part numbers utilize the SRI spring prefix as a means of helping to identify the correct components for the correct application based on OE Manufacturer..

1. Identify vehicle or suspension manufacturer
2. Refer to Table of Contents to determine location of the vehicle make within the catalog.
3. Refer to Application Chart for specific models and part numbers.
4. Dimensional information is supplied to assist in proper part identification.
5. Part Identification Photos are listed in part number sequence.

Example: Part # **TD 5550**

International / Navistar

99	Advanced Mixer	59	Kenworth
